

Can I bring my pets to my new home?

Pets really do make a house a home – whether it's Bert the bulldog or Toby the tabby cat, finding a property that accepts pets is a must once they've become part of the family. So can you bring your pets to Bournehurst?

Pets are welcome here at Bournehurst because your property is exactly that – your property. Bring your pets and let them make themselves at home too.

Our grounds are the perfect environment for a dog, we've got over four acres of open parkland and landscaped gardens for walking. We just ask that you respect the grounds as you would a public area which means tidying up after your pets and making sure that they aren't impacting anyone else's experience at Bournehurst Park Village.

Ultimately once you own your property, you're free to live the retirement you've hoped for. That means friends and family are welcome to stay, pets can join you in your new home, plus we offer extra-care packages for all our properties. This means that if your care needs change and looking after your pet becomes difficult, we can have a member of staff come to your home to give a helping hand.

To register your interest in a property, or for more information call us on 0151 3742244 or email hello@bournehurst.co.uk
